

Grana sur

**Worldwide leader in the production
of Rosehip products, Oils, Exfoliants**

Specialty Oils

Granasur produces cold-pressed, organic and refined Seed Oils. All of our oils are produced in small-batch quantities to carefully preserve their natural characteristics and benefits. Our products are then saturated in Nitrogen prior to packaging. Quantities range from 5 to 190 Kg.

Rosehip

Grapeseed

Cucumber

Hazelnut

Rosehip oil

We produce our oils from Rose hip seeds, whose plants grow naturally and wildy in Chilean Patagonia, an area which is almost entirely free of pollution and contaminants.

We pride ourselves on the natural characteristics of our products, this is why we never use chemicals or solvents to obtain our oils. Additionally, we produce our rose hip oils in small batches to maintain and preserve their natural composition.

We produce our organic and conventional rose hip oils using a cold-press system. Our oils are then saturated in Nitrogen prior to packaging to preserve their characteristics.

Product is available as Natural, Natural Deodorized, Organic, High Color .

Grana sur

Grapeseed oil

Our Grapeseed oil come from grapes grown and harvested in Chile's Central Valley. It is of the utmost importance for us to conserve the natural components within our products, we don't use solvents or chemical treatments of any kind for our products.

We use a cold-press system followed by a careful filtration process to create this product, our products are then saturated in Nitrogen prior to packaging.

This oil is rich in nutrients and antioxidants that could help reduce skin damage and blemishes.

Product is available as Natural, Natural Deodorized, Organic, Organic Odorless .

Grana sur

Cucumber oil

Our Cucumber Oil is extracted by cold-pressing Cucumber seeds in a careful process that maintains the oil's purity and natural components. We don't use any chemical processes to extract our oils. This oil has a yellow color and a fresh, natural Cucumber aroma.

Raspberry oil

Our Raspberry Oil is extracted from the seeds of the Raspberry fruit, which grows naturally in southern area of Chile. We obtain the oil by cold-pressing the seeds, which is then carefully filtered to maintain the oil's natural composition.

Grana sur

Hazelnut oil

The Wild Natural Chilean Hazelnut Oil is obtained by cold pressing the seeds that grow inside the fruit of *Gevuina avellana* mol. This careful processing enables to maintain its purity. No chemical processes are applied.

Scrubs and Exfoliants

We produce our scrubs by re-processing selected seeds bran. By doing so we achieve the roughness that allows a soft and deep cosmetic exfoliation. Some of our products enable the production of body treatment cosmetic masks.

Natural and Organic Grapeseed scrub

Our natural and organic grape seed exfoliant is obtained after a carefully driven grind process. The scrub is produced from grape seeds grown in the central regions of Chile, well known for its quality vineyards. Its dark brown color, rich in antioxidants and a very fine roughness will produce a soft and shiny skin. Particle size range: 60 mesh (250 u) 90% min. - 200 mesh (74 u) 70% min.

Natural and Organic Rosehip scrub

Our Organic rosehip scrub is produced from a special part of the seed after the oil has been extracted. This exfoliant has a particular roughness that helps the achievement of a soft and clean skin.

This organic exfoliant is certified by BCS Öko Garantie Germany.

Particle size range: 60 mesh (250 u) 90% min. - 100 mesh (150 u) 60% min.

Natural Raspberry scrub

Our raspberry scrub, processed after extracting the oil from the seed, will give a touch of class and distinction to your products. This exfoliant is perfect for body application producing a clean and soft skin.

Particle size range: 35 mesh (500 u) 70% min. - 100 mesh (150 u) 65% min.
